

JOB OPPORTUNITY  
CHIEF TECHNOLOGY OFFICER  
Warp Platform Portal & Signal Radio Station

Are you ready to lead the future of sonic entrainment and quantum media? Warp Industries is offering a unique and comprehensive opportunity for a Chief Technology Officer (CTO) to take ownership of our Warp Platform Portal and Signal Radio Station. This role is not just about maintaining the day-to-day functionality of our cutting-edge live stream, but about shaping the direction of our technological advancements and media broadcasting through vector wave oscillation engineering.

### **Role Overview:**

As the CTO and Custodian of the Warp Portal, you will be responsible for:

**Signal Maintenance and Optimization:** Oversee the daily operations of our 24/7 audio stream, ensuring seamless signal quality for our listeners and managing waveform entrainment protocols for enhanced user experiences.

**Audio-Sonic Entrainment Expertise:** Utilize advanced sonic engineering principles to perfect the live stream's frequencies, ensuring that the broadcast remains cutting-edge and aligned with our mission of delivering mind-altering waveforms.

**Platform Evolution and Innovation:** Spearhead new initiatives to evolve the platform, integrating AI, blockchain technology, and quantum algorithms to drive forward technological innovations in broadcasting and signal modulation.

**Ownership of the Media and Stream:** You will be fully responsible for the quality and integrity of the live stream, ensuring high fidelity audio transmission and the optimization of soundscapes for maximum entrainment impact.

**Aetheric Wave Function Engineering:** Integrate quantum physics, scalar wave mechanics, and aetheric principles into the stream's operation, delivering an immersive auditory experience designed for mind expansion and consciousness exploration.

### **Revenue Share and Compensation:**

The pay structure is directly tied to your success in expanding Warp Industries' market presence. As the custodian of the platform, you will receive 20% of all revenue, **which includes:**

Sales of WarpTronics hardware and software products, developed using AI integration and blockchain technology.

Market share generated from platform growth, user engagement, and technology innovations.

This profit-sharing model ensures that your financial growth is directly aligned with the company's success.

### **Scope for Growth:**

This position serves as a stepping stone to further opportunities within Warp Industries, including involvement in world agency assignments and pioneering underground operations in human-aetheric interactions. The scope of this role is vast, and you will have the autonomy to innovate and expand the platform in any direction you see fit.

### **Are you ready to shape the future of consciousness-enhancing media?**

Apply now and become the guardian of the Warp live stream, leading the evolution of sound, wave, and mind technologies.
